

FACTS for Youth is on a mission to provide high school students and athletes financial literacy workshops and guidance in post-high school plans. Through basic money management, healthy development, and college and career exploration, we are building our youth and adding value to the community.

## SHOW ME THE MONEY

Kids are graduating from high school and college without a firm knowledge of how to properly manage their finances. This lack of knowledge can become devastating to student's futures. The Show Me the Money workshops will give students financial literacy education to positively influence attitudes and behaviors toward money management now and well after they graduate.

## NEXT STEP...SUCCESS

While a vast majority of high schoolers want to attend college, most feel unprepared to do so. Going to college, getting a job, or taking time off are common choices students face. Next Step...Success is a workshop that will assist students in making these important life decisions and set them up for success.

## THE ATHLETE'S CORNER

Student-athletes already have to worry about their athletic, academic, and career development that they often forget about their finances. The Athlete's Corner is a workshop specifically tailored toward athletes and their needs including recruitment, social media and managing money.
