

SHOW ME THE MONEY

Show Me the Money consists of three workshops: **Money Managed, Money Borrowed, and Money Grows.** Workshops are delivered in three, 60 or 90-minute presentations by FACTS staff and volunteers from the local business community. The Show Me The Money workshop is hands-on, game based and delivered in high schools, churches and community-based organizations that serve teens. Our aim is to educate students on basic personal finance to prevent future debt, credit misuse, and impart a positive influence on attitudes toward money. We believe it is important to provide engaging, real-world experience to students for an education they will never forget. While most workshops are scheduled during school hours and within the academic year, scheduling is flexible and opportunities are also available during evenings, weekends, and in the summer.

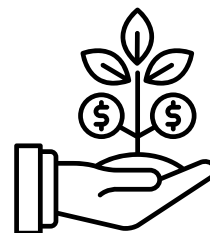

The Curriculum:

- Money Managed
 - Goal-Setting
 - How to build and use a budget
 - Benefits of budgeting and saving early
 - Pay yourself first

- Money borrowed
 - What is credit?
 - How does it work?
 - Credit scores/reports- what how and why?
 - How to choose between credit card offers
 - How credit scores affect someone's future

- Money grows
 - How money grows through investments
 - The magic of compounding interest
 - Risks vs reward
 - Diversification
